

Dear Congresbury Parish Council,

We are getting in touch to inform you about upcoming reinstatement works on Weston Road (A370), as part of the Hinkley Connection Project.

As part of our efforts to restore land used to construct the Hinkley Connection Project, we will be having three-way traffic lights between **3 November and 28 November 2025** to allow for the completion of reinstatement works. These works involve removing a temporary access point and restoring the area to its original condition.

To carry out this work safely, **the traffic lights will remain operational 24 hours a day throughout the duration of the works, with our contractors Balfour Beatty working onsite during the hours of 7:30am and 5:00pm. These works are permitted.**

We would like to reassure you that we are working hard to minimise disruption and have carefully planned the traffic management to maintain traffic flow while allowing our teams to work safely. The traffic management will be located in close proximity to Moorland Park bus stops, resulting in the suspension of both bus stops throughout the duration of works. These works will also result in the closure of the adjacent pedestrian footpath. Please be assured that our Traffic Management Operatives will be on site during working hours to help pedestrians safely navigate around the works area.

We remain committed to keeping local communities informed and have issued the attached postcard to local residents to ensure they are aware. It includes our contact details in case anyone has questions or concerns.

We understand that roadworks can be disruptive, and this approach has been carefully planned to keep the traffic management in place for as short as possible while allowing for this work to be completed safely and reliably. We would like to thank you for your cooperation whilst we complete these works, and for your patience as we continue our work to deliver electricity safely, efficiently and reliably.

If you have any questions or concerns, please do not hesitate to contact our Community Relations Team using the details below.

Kind regards,

Community Relations Team
